	Since inception		0.09%	
	[Launching Date: 06.11.2025]			

NOTE

The calculations of Annual and Average Total Returns are based on the method obtained from Lipper Asia Ltd.

- 1 Capital Return (%) = [(End of period NAV price / Beginning of period NAV price) - 1] x 100
- 2 Income Return (%) = [Gross Distribution / NAV price on ex-distribution date] x 100
- 3 Annual Total Return (%) = Capital Return + Income Return
- 4 Average Total Return (%) = Total Returns / Number of Years Under Review

**Past performance is not necessarily indicative of future performance
and that unit prices and investment returns may fluctuate.**

* Explanation for Difference in Total Expenses Ratio ("TER")
TER during the period was moderate and acceptable.

Explanation for Differences in Portfolio Turnover ('PTR')
PTR was moderate and moderate during the period.

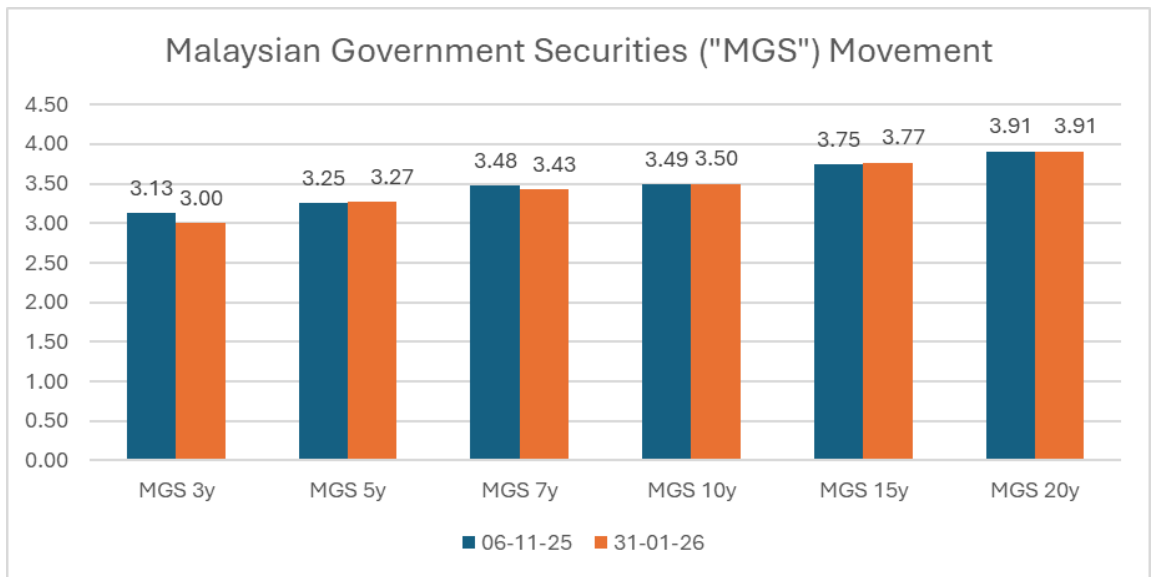

**ARIM STEADY INCOME I FUND
MANAGER'S REPORT
For the Financial Period From 6 November 2025 (Launch Date) to 31 January 2026**

<p>Fund Performance & Investment Objective</p>	<p>ARIM Steady Income I Fund ("the Fund or Steady I") aims to provide Unit Holders with a steady regular income.</p> <p>During the financial period under review, the Fund fulfilled its objective in providing steady regular income and capital preservation despite the challenging market conditions. The Fund had outperformed the benchmark Maybank 1-Month Islamic Deposits Rate and had performed steadily during the period under review.</p> <p>As illustrated in the graphs below, the Fund underperformed the benchmark by -0.05% by registering a total return of 0.09% as of 31 January 2026 versus the benchmark's 0.14%.</p> <p>The Net Asset Value ("NAV") per unit of the Fund as of 31 January 2026 was RM1.0009. For the financial period from 6 November 2025 (launch date) to 31 January 2026, the Fund did not declare any income distribution for the Fund. On the total NAV basis, the Fund size as of 31 January 2026 is RM1,001,077.</p> <p>The graphs below illustrate the comparison between the Fund's performance and benchmark's performance:</p> <p style="text-align: center;"><u>Figure 1: Performance of the Fund versus Benchmark for the Financial Period from 6 November 2025 (launch date) to 31 January 2026.</u></p> <div data-bbox="363 1200 1506 1877" style="border: 1px solid black; padding: 10px;"> <p style="text-align: center;">Since Inception Performance: Steady I vs Benchmark</p> <table border="1" style="margin-left: auto; margin-right: auto;"> <caption>Data for Figure 1: Performance of the Fund versus Benchmark</caption> <thead> <tr> <th>Date</th> <th>Steady I (%)</th> <th>Maybank 1 month GIA rate (%)</th> </tr> </thead> <tbody> <tr> <td>Nov-25</td> <td>-0.01%</td> <td>-0.01%</td> </tr> <tr> <td>Dec-25</td> <td>-0.01%</td> <td>0.03%</td> </tr> <tr> <td>Jan-26</td> <td>0.09%</td> <td>0.14%</td> </tr> </tbody> </table> </div>	Date	Steady I (%)	Maybank 1 month GIA rate (%)	Nov-25	-0.01%	-0.01%	Dec-25	-0.01%	0.03%	Jan-26	0.09%	0.14%

Launching Date: 6 November 2025	
Investment Policy & Strategy	<p>The Fund aims to achieve its investment objective by allocating at least 30% of its NAV in Ringgit-denominated sukuk, such as sovereign, quasi-sovereign, and corporate sukuk directly or via Islamic Collective Investment Scheme (“CIS”). The remaining NAV will be invested in Islamic money market instruments and/or Islamic deposits with Financial Institutions.</p> <p>For rated sukuk, the Fund may invest in those with a minimum credit rating of “AA3” by RAM or its equivalent rating by MARC at the time of purchase. The minimum credit rating requirement shall not be applied to the Fund’s investment in sovereign and or quasi-sovereign sukuk.</p> <p>In the event of a credit rating downgrade below the stipulated minimum rating, the Manager may dispose of the affected sukuk as soon as practicable. However, if such action may be detrimental to the Fund, the Manager may hold the affected sukuk until its maturity if it is in the best interest of the Unit Holders. A credit downgrade generally will have no impact on the sukuk upon its maturity if credit default does not occur.</p> <p>The issuer’s credit rating assigned by a relevant credit rating agency may be used to determine the applicable credit rating for a sukuk when the credit rating of a particular sukuk is not available and the Manager is of the opinion that the issuer’s rating is a representation of the sukuk’s rating, i.e. in the event of any insolvency of the issuer, the sukuk of that issuer shall rank in equal seniority in rights of payment or claim with all other non-secured and non-guaranteed obligations of that issuer.</p>

	The Fund is actively managed. However, the frequency of its trading activities will depend on market opportunities as assessed by the Manager.

Income Distribution	<p>Distribution will be made monthly or at such other frequency as the Manager may decide in its absolute discretion.</p> <p>During the period under review, the Fund did not declare any income distribution.</p>																					

Market & Economic Review

Source: Bloomberg

During the financial period, the Malaysia bond market exhibited an interesting yield curve pattern for government bonds, where only the 3-year and 7-year tenors saw a slight decrease in yields, while the rest of the maturities experienced a slight uptick in yield. The move was largely driven by the sharp appreciation in Malaysian Ringgit ("MYR") versus United States Dollar ("USD") catalyzed by renewed foreign inflows into the front-end, compressing yields more aggressively in the 3-year tenor, while investors also seek higher yield in the 7-year which provides a more neutral duration.

In fourth quarter of 2025, Malaysia's Gross Domestic Products ("GDP") expanded by 6.30%, marking the fastest pace in three years and materially above consensus. This translates to a full-year expansion of 5.20%, up from 5.10% in 2024. The upside was driven by sustained domestic momentum, with private consumption rebounding and government spending holding steady, complemented by robust trade performance. Investment inflows picked up, inflationary pressures eased, and the labor market remained tight, with unemployment hovering near a decade-low, underscoring broad-based economic resilience.

Looking ahead to 2026, the continued improvement in domestic demand is expected to further enhance the country's economic growth with a projected growth in the range of 4.00% - 4.80% supported by resilient domestic demand and exports.

The annual inflation rate for 2025 was 1.40%, lower compared to 2024 of 1.80%. This was mainly contributed to housing, water, electricity and other fuels, followed by health, sport and transport. According to Bank Negara Malaysia ("BNM"), the inflation rate for 2026 is expected to remain moderate subject to modest commodity prices throughout the year. The domestic policy reforms implemented in 2025, such as the Sales and Service Tax ("SST") expansion and targeted RON95 subsidy rationalization, are projected to result in only modest effects on inflation in 2026.

In 2025, MYR outperformed against the USD approximately by 8.20% to RM4.13 from RM4.50. This movement were driven by both external and domestic factors where on the external front the interest rate differentials between the United States and Malaysia which has supported the MYR. Domestically, Malaysia's positive economic prospects and continued reform efforts by the government have continued to reinforce overall sentiment in the domestic financial market. We anticipate the ringgit will continue to appreciate throughout 2026, supported by a stable Overnight

	<p>Policy Rate (“OPR”), which is likely to attract additional investor interest, alongside rising commodity prices driven by increased geopolitical tensions, given Malaysia’s reliance on oil exports as a primary source of revenue.</p> <p>Overall, AmanahRaya Investment Management Sdn. Bhd. (“ARIM”) expects Malaysia’s growth momentum to remain robust, underpinning a supportive backdrop for the domestic bond market. With improving economic data and sustained demand from both domestic and foreign investors, the market outlook remains constructive.</p> <p>We maintain a positive stance on sukuk, anticipating returns to stabilize even amid a slower pace of US Federal Reserve rate cuts. Growth is expected to remain steady, supported by policy continuity under the current administration.</p> <p>The domestic bond market is likely to continue attracting investors seeking stable income with lower volatility.</p> <p>In view of all the above, the following strategies are recommended:</p> <table border="1" data-bbox="354 817 1088 967"> <thead> <tr> <th>Factors</th> <th>Strategy</th> </tr> </thead> <tbody> <tr> <td>Duration</td> <td>Medium to Long</td> </tr> <tr> <td>Credits</td> <td>Corporate over Govvies, AA/A rated</td> </tr> <tr> <td>Yield Curve</td> <td>Trade on the belly and long end</td> </tr> </tbody> </table>	Factors	Strategy	Duration	Medium to Long	Credits	Corporate over Govvies, AA/A rated	Yield Curve	Trade on the belly and long end
Factors	Strategy								
Duration	Medium to Long								
Credits	Corporate over Govvies, AA/A rated								
Yield Curve	Trade on the belly and long end								
<p>General Strategy</p>	<p>The Fund will take a cautious approach on duration management and remain overweight on the belly the yield curve for risk-reward management.</p>								
<p>Significant Changes in the State of Affairs of the Fund</p>	<p>There were no significant changes in the state of affair of the Fund during the financial period and up to the date of Manager’s Report.</p>								
<p>Rebates and Soft Commissions</p>	<p>A soft commission may be retained by the Manager or its delegate for payment of goods and services such as research material, data and quotation services, and investment management tools which are demonstrably beneficial to unit holders. Rebates, if any, on stockbroking transactions will be credited to the Fund. All dealings with brokers are executed on terms which are the best available for the Fund.</p> <p>During the financial period under review, the Manager did not receive or utilize any of the above.</p>								
<p>Cross Trade</p>	<p>Cross trade transactions have been carried out during the financial period under review and Trustee of the Fund has reviewed that such transactions are in the best interest of the Fund, transacted in the normal course of business at agreed terms and on a fair value basis.</p>								

Securities Financing Transaction	The Fund has not undertaken any securities lending or repurchase transactions during the financial period under review.
Circumstances That Materially Affect Any Interest of Unit Holders	There were no circumstances that had materially affected the interest of the unit holders during the financial period under review.

ARIM STEADY INCOME I FUND

SHARIAH ADVISER'S REPORT
